

SKIPS & HOOKS

SKIPLOADERS

10 TO 32 TONNES GVW

The Market Leading Range

Hyva skiploaders are true market leaders, with UK sales greater than all others combined. Our range covers every vehicle type from lightweight 10t gvw chassis through to 32t 8x4s, each Hyva model combining unmatched strength, durability and long term reliability. Equally important is the fact that Hyva always leads with the latest technologies to make skiploader operation safer, more efficient and more productive. For example, Hyva's latest TITAN models offer the widest ever range of advanced user-friendly features. For the vehicle owner, TITAN's fully bolted construction makes bodywork installation, maintenance and repair easier and speedier than ever. Similarly our highly responsive, fast-acting control system speeds up the whole operating cycle. For precise handling and skip positioning, the controls offer fully independent left and right hand operation. Maximum possible load security is provided by the introduction of deck-mounted adjustable skip clamps, keeping the skip firmly in place on the platform. Hyva's long proven hydraulically operated AutoSheet system also prevents any waste materials blowing away from the top of the skip. Most advanced of all is Hyva's latest TRR 'Handy' fully remote control operating system. Using a hand-held control module little bigger than a TV remote, all skiploader operations including the sheet can be performed by the driver standing away from the vehicle. By being able to view and control the complete loading and unloading procedure from any point around the truck, safety and efficiency are maximized.

Hyva TRR Handy - the ultimate skiploader.

- **The clear UK market leader**
- **Proven strength, durability & reliability**
- **TITAN fully bolted construction**
- **Optional fully remote control**
- **Latest design sheeting system**
- **Optional skip clamps for maximum skip security**
- **Proven performance & productivity**
- **Safety to the fore**
- **Minimum whole life costs**
- **CHEM TS16 specification**

SKIPLOADERS FOR 4 X 2 RIGIDS

GVW (tonnes)	Model	Lifting Capacity		Radius (mm)		Weight (wet) kgs*
		Arms Closed	Arms Extended	Standard Arm	Telescopic Arm	
10 - 15	NG2008 NG2008TA	8.5t	-	2500	-	2480
		8.5t	4.5t	2500	3750	2800
18	NG2012 NG2012XL	12t	-	2900	-	3170
		12t	8t	2950	4400	3740

SKIPLOADERS FOR 6 X 4 / 8 X 4 RIGIDS

GVW (tonnes)	Model	Lifting Capacity		Radius (mm)		Weight (wet) kgs*
		Arms Closed	Arms Extended	Standard Arm	Telescopic Arm	
26 - 32/44	NG2018 NG2018XL	18t	-	3100	-	3690
		18t	11t	2950	4400	3700

For longer wheelbase 26 / 32t rigids, Hyva also offers a 'twin bin' skiploader configuration using either 2012XL or 2018XL mechanisms.

* Wet weight means the unit is fully ready for work, and includes the pto, all pipework and hydraulic oil

HOOKLOADERS

3.5 TO 44 TONNES GTW

Market Leaders Too

Together, Hyva skiploaders and hookloaders offer a total operating solution. Our hookloader range covers every operating requirement from 3.5t van chassis cabs through to 44t drawbars operating in bulk waste handling and recycling. As with our skiploaders, the latest TITAN hookloaders for 6x4 and 8x4 chassis also feature fully bolted construction. Easy to install and easy to maintain, TITAN is more cost-effective than ever to own and operate. To suit ever more demanding working requirements, TITAN also introduces a whole host of significant specification upgrades. Load bearing rollers and bracketry are now all galvanised. Lifting cylinders are not only more powerful but also lighter and faster in operation. Similarly, forged yokes provide extra strength exactly where it's most needed. At the rear, reduced height geometry makes loading and unloading containers that bit easier and less stressful. Whilst above, the integral, width-adjustable AutoSheet system keeps everything safe and secure. Safety is further enhanced by Hyva's latest ADR-certified 'Combi' container locking system that ensures a 25 tonnes load can be securely held with up to 1G of sideways force. Fully certified under WVTA requirements for either N3 (on-road) or N3G (off-road) operation, Hyva hookloaders deliver unrivalled performance and productivity - whatever the individual model or application.

Hyva Hookloaders - the clear market leader.

- **The UK's top selling hookloaders**
- **Fully bolted construction**
- **Lighter, more advanced design**
- **Superior performance and productivity**
- **Width-adjustable AutoSheet**
- **Emphasis on safety & security**
- **ADR certified 'Combi' load locking**

HOOKLOADERS FOR 4 X 2 RIGIDS

GVW	MODEL	LIFTING CAPACITY (TONNES)	EQUIPMENT WEIGHT (kgs)	TIPPING ANGLE (DEGREE)	INSTALLATION HEIGHT (mm)	EQUIPMENT LENGTH (mm)	CONTAINER LENGTH (mm)	CHEM STANDARD

TRR[®] **HANDY**
TITAN RADIO REMOTE

TRR Handy - Key features

- Unique 'TV Remote' sized control module
- Shockproof and weatherproof
- Operator has a full 'walk around' view of the working environment
- Highly sensitive and accurate controls
- Faster working cycle for higher productivity
- Offered with new EasySheet system
- Maximum operating safety

HYVA CARE

Right Up Your Street

HyvaCare is the most comprehensive after-sales support in the industry. It's designed keep your Hyva products working reliably, cost-effectively and to the same premium standards of performance as on the day they were new. HyvaCare starts with a commitment to offering the best possible warranty across our full product range. Then we guarantee to carry the largest stocks of genuine OE and ancillary parts, and to deliver them in the shortest possible timeframe. Additionally, we also offer bespoke, low cost R&M contracts to keep your equipment operating at its very best and unplanned downtime to the absolute minimum. Operating skiploaders and hookloaders is a hard business conducted in challenging environments. By reducing unplanned downtime and expenditure to the minimum, HyvaCare makes everything that bit easier.

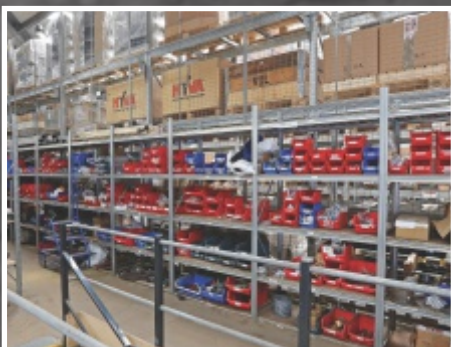

HyvaCare - the proof of our commitment and capability.

The best warranty in our industry ● Maximum parts availability

Bespoke R&M contracts ● Full technical support

Comprehensive in-house ● workshop facilities

110 countries
+3,500 employees
20,000 customers
+30 subsidiaries
12 production facilities

Hyva is a leading provider of innovative and highly efficient transport solutions for commercial vehicles used in transport, construction, mining, materials handling and environmental service industries.

Founded in 1979 in the Netherlands, the company has a global presence with 37 fully owned subsidiaries, extraordinary service coverage and 12 manufacturing facilities in Brazil, China, Europe and India.
